

Research and Innovation Promotion Policy.

(Version-2.0)

Research and Innovation Promotion Policy:

Preamble:

The Policy of Research and innovation promotion of Geeta University encourages faculty members for their professional growth. With the introduction of NIRF ranking at National level, QS Star Rating at International level and considering the recommendations of NAAC accreditation, the emphasis is given to publish research papers in WOS/SCI/SCIE/ABDC Journals/ Scopus database. Keeping the UGC guidelines in mind, the policy is developed in the interest of the Geeta University which will not only improve the research credentials of the University but also the credentials of faculty members as well. This will help all faculty members to contribute towards research, innovation, publication and other areas for the benefit of all the stakeholders.

Definitions:

The University uses a broad definition of what constitutes Research & innovation promotions. Its essentials features are:

Research & Innovation is professional work undertaken by faculty member of university in multidisciplinary field of interest, for which minimum performance points have to be undertaken by each & every faculty. It may result in generation of research publications, IPRs, Research projects/Funding, consultancies.

Objectives:

The University is committed to disseminating its research as widely as possible to create maximum impact, and support its faculty members in making their research outputs available through open access.

Research Facilitation to Faculty members:

It is the need of the hour to make it mandatory for all faculty members to contribute towards research and other activities at all levels so as to earn minimum performance points based on listed parameters. This will help them to get annual increments/allowance /financial support/grants from the organization. However, if someone is not able to earn minimum performance points as per their cadre limit, he/she will be given another six months of improvement. Thereafter, such faculty members shall be treated as non-performer and annual increment will not be considered for the faculty members who could not achieve the minimum performance points till, they achieve the minimum performance criteria.

The details of minimum performance points to be earned by faculty members in one academic year are given below:

Table:1

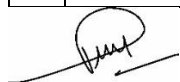

Sr. No.	Cadre	Minimum Performance Points to be Earned in One Academic Year
1	Professor	18
2	Associate Professor	14
3	Assistant Professor	10

The performance point will be calculated on the basis of following parameters in one academic year (July to June) and one can earn multiple points under each category to achieve minimum performance points every year.

The performance points against various parameters are as follows: -
